PROFESSIONAL SUMMARY

Results-driven Data Analyst and Monitoring & Evaluation (M&E) professional with expertise in data analysis, dashboard development, survey analytics, data cleaning, and evidence-based reporting. Skilled in transforming raw operational and survey data into actionable insights using Microsoft Excel, SQL, Power BI, KoboToolbox, CommCare, Google Sheets, and Power Query.

Experienced in developing analytical solutions across humanitarian, development, and business contexts, including education monitoring, food security analysis, programme performance tracking, recruitment analytics, and impact assessment. Passionate about leveraging data to improve accountability, operational efficiency, program delivery, and strategic decision-making for NGOs, INGOs, UN agencies, and remote organizations.
